

Electric & Manual Work Positioners

www.edmolift.co.uk

These remarkably manoeuvrable and extremely lightweight lifts are available with battery or manual power options. Push button or hand winch controls operate smooth elevation and descent. All units are fitted with four all swivelling castors and two total stop brakes making them ideal for confined working areas and narrow aisles.

WP Battery Powered Models

- 65Kg, 85Kg, 105Kg, 155Kg, 205Kg options
- Various raised height options, up to 2.4M
- Push button dual speed elevation & descent
